

David Mayfield

SENIOR PROJECT MANAGER

David Mayfield has 32 years professional experience as a planner and project manager of park, environmental, land use and transportation planning projects. He is well respected for his team leadership skills and successful management of large, complex projects. He is especially accomplished in integrating transportation corridor planning with the National Environmental Policy Act (NEPA), developing context-sensitive solutions and advising on sustainability practices. Mr. Mayfield has a master's degree in Cultural Ecology from San Francisco State University and a bachelor's degree in Environmental Studies and Planning from Sonoma State University.

Selected Professional Experience

- **Visioning:** Planned and helped conduct a series of visioning workshops along U.S. 50 in Colorado; Facilitator, Complete Communities for Clackamas County Community Congress VI, Clackamas County, Oregon; Facilitator, Harmony Community Campus Vision and Conceptual Master Plan, Clackamas County, Oregon.
- **Sustainability Planning:** Peak Oil Implementation Plan for the City of Portland Office of Transportation; Sustainability Master Plan for the City of Palm Springs, California; Zhangjiang Hi-tech Park Sustainable Master Plan for client in Shanghai, China.
- **Transportation Corridor Planning Projects:** Studies of new alignments and multiple modes. Conducted for a full range of clients, including FHWA, ODOT, CDOT, ITD, NMDOT, Caltrans, Community Planning Association of SW Idaho (COMPASS), Washington County, Oregon, and Pierce County, Washington. Projects ranged in length from approximately 10 miles to 150 miles, and one involved an international corridor (both Alaska and British Columbia). For several of these projects, structured the decision-making process to include stakeholder participation and context-sensitive solutions.
- **Multimodal Alternatives Analysis and Planning Studies:** California, Oregon and Texas, including bicycle facilities, bus, light rail and commuter rail. Projects include studies of transit station locations, environmental analysis of impacts, and facilitating development of alternative design concepts.
- **Environmental Planning:** Resource surveys, opportunity and constraints analysis, conceptual design of planned developments, wetland studies and permitting, and Endangered Species Act compliance.
- **Environmental NEPA and Related Studies:** Projects throughout the western U.S. for water, wastewater, energy and transportation clients. Experience includes two tiered EIS projects, the Newberg-Dundee Transportation Improvement Project in Oregon, and the U.S. 50 East project in Colorado.
- **Park Planning and Project Management:** Regional, state and national parks, such as master planning, site planning, resource studies, ecological restoration and adaptive re-use of historic structures. Project manager for the master plan update of Fort Stevens State Park, a 3,700-acre park on the Oregon coast.
- **Cultural Resource Investigations:** California, Oregon, Washington, New Mexico and Colorado, including archaeological surveys and excavations, ethnographic studies and historic property inventories. Work includes a number of Section 4(f) evaluations in compliance with federal transportation regulations.
- **Planning and Urban Design:** Cities of Portland, Beaverton and Newport, Oregon; planned unit development services for several large proposed projects (80 to 450 acres) Oregon and Washington.

Community Service

- Oregon Governor's Alternative Fuels Vehicle Infrastructure Working Group (Facilitator)
- 2009 Regional Livability Summit "Coalition for a Livable Future" (Panelist)
